BY SELECTING THE ACCEPTING OPTION, OR BY INSTALLING, COPYING OR USING THE SOFTWARE OR SOFTWARE-BASED SERVICE YOU (EITHER AN INDIVIDUAL OR AN ENTITY) AGREE THAT YOU HAVE READ THESE TERMS, UNDERSTAND THEM AND AGREE TO BE LEGALLY BOUND BY THEM. IF YOU DO NOT AGREE TO ALL OF THE TERMS, DO NOT INSTALL, USE OR COPY THE SOFTWARE.

These Terms cover any and all F-Secure programs and software based services and web applications licensed by or made available to you, including support tools, web portals directly supporting your use of the Software, related documentation and any updates and upgrades to any of above (together the "Software"). These Terms also apply to such programs that are made available to you under the purchased license or related service agreement where these Terms are specifically appended. You acknowledge and accept that the Software is subject to specific limitations such as purpose of use and certain technical requirements including but not limited to operating system, storage space, geographical location or network connectivity.

COMMERCIAL LICENSE

Subject to the payment of applicable license fees and subject to the following terms and conditions, you have been granted a non-exclusive, non-transferable right to use the specified Software for a specified time period as separately agreed between yourself and F-Secure or its distributors. F-Secure and its licensors reserve any and all rights not expressly granted to you.

You may:

- A) install and use the Software only on as many units (typically handheld devices, personal computers, servers or other hardware, jointly referred to as "Device") as stated in the Software, F-Secure License Certificate, applicable invoice, product packaging or agreement where these Terms have been appended. If the Software and/or its services are shared through a network or the Software is used to filter traffic at servers, firewalls or gateways, you must have a license for either scanning capacity or for the total number of users whom the Software provides services to. In such cases you may install the Software on as many units as needed;

- B) create copies of the Software for installation and backup purposes only; and
- C) extend the number of licenses by purchasing more licenses.

You may not:

- A) install and use the Software against these Terms, the F-Secure License Certificate or other related documentation;
- B) distribute copies of the Software to a third party, electronically transfer the Software to a computer belonging to a third party, or permit a third party to copy the Software, except and to the extent where such activity is expressly stated in related documentation;
- C) modify, adapt, translate, rent, lease, resell, distribute or create derivative works based upon the Software and/or related files (including but not limited to databases, news, descriptions or any other content) or any part thereof;
- D) decompile, reverse engineer, disassemble, or otherwise reduce the Software and/or related files (including but not limited to databases, news, descriptions or communications between applications) to any human-perceivable form (except to the limited extent permitted under mandatory copyright legislation) as the Software contains or may contain trade secrets of F-Secure and its licensors;
- E) use the documentation for any purpose except to support your use of the Software;
- F) disclose the license authorization code provided for the application installation (including but not limited to subscription key) to any third party;
- G) use security or backup Software or any portion thereof to implement any product or service to operate on or in connection with the Software for any other purpose than for which the Software is provided; or
- H) where security or backup Software includes an Automatic Update Agent component, use such component to publish, distribute and/or obtain software or content (i) not specifically related to F-Secure products and/or services and (ii) not security-related (or any updates to any such software or content).

Please contact F-Secure directly if you are interested in any other rights to the Software than those granted in these Terms.

licensed to you for the sole purpose of evaluating the Software and only for a specified trial period, which will begin on the date that the Software is first downloaded by or delivered to you. After the specified time period, you must either buy the Software license from F-Secure or its distributor, or destroy and stop using the Software. If you buy a license for the Software before the end of the trial period and activate the Software, you have a valid license and you do not need to destroy the Software. F-Secure shall have no obligation to provide support or maintenance services for Evaluation Licenses. For the avoidance of doubt, the Evaluation License is also subject to restrictions set out above as items A-H. F-Secure and its licensors reserve any and all rights not expressly granted to you.

A Non-Commercial License is applicable when you use, download or install a free (other than trial) version of Software made available to you by F-Secure or its distributor. Such Software is licensed to you only for a limited period as a non-exclusive, non-transferable license and is intended only as a supplementary tool (not for continuous content security, or for other long-term purposes). F-Secure reserve the right to end the ability to use this type of Software at any time and is under no obligation to provide support or maintenance services for Non-Commercial Licenses. For the avoidance of doubt, the Non-Commercial License is also subject to restrictions set out above as items A-H. F-Secure and its licensors reserve any and all rights not expressly granted to you.

OPEN SOURCE LICENSES

You acknowledge that certain components of the Software may be covered by so-called “open source” software licenses (“OSS Licenses”), which means any software licenses approved as open source licenses by the Open Source Initiative or any substantially similar licenses, including without any limitation any license that, as a condition of distribution of the software licensed under such license, requires that the distributor make the software available in source code format (“Open Source Components”). In respect of the Open Source Components, the following stipulations shall apply; i) to the extent expressly required by the OSS licenses, the terms of relevant OSS licenses (including in particular the scope of license as well as disclaimers of warranties and liabilities) shall apply to the respective Open Source Component(s) in lieu of these Terms and ii) to the extent the applicable terms of OSS Licenses prohibit any of the restrictions in these Terms such restrictions will not
